ABSTRACT
In this paper, we describe the formatting guidelines for ACM SIG Proceedings.

Keywords
Guides, instructions, authors kit, conference publications.

1. INTRODUCTION
The proceedings are the records of the conference. ACM hopes to give these conference by-products a single, high-quality appearance. To do this, we ask that authors follow some simple guidelines. In essence, we ask you to make your paper look exactly like this document. The easiest way to do this is simply to down-load a template from [2], and replace the content with your own material.

2. PAGE SIZE
All material on each page should fit within a rectangle of 18 x 23.5 cm (6” x 9.25”), centered on the page, beginning 2.54 cm (1”) from the top of the page and ending with 2.54 cm (1”) from the bottom. The right and left margins should be 1.9 cm (.75”). The text should be in two 8.45 cm (3.33”) columns with a .83 cm (.33”) gutter.

3. TYPESET TEXT
Prepare your submissions on a typesetter or word processor.

3.1 Normal or Body Text
Please use a 9-point Times Roman font, or other Roman font with serifs, as close as possible in appearance to Times Roman in which these guidelines have been set. The goal is to have a 9-point text, as you see here. Please use sans-serif or non-proportional fonts only for special purposes, such as distinguishing source code text. The Press 9-point font available to users of Script is a good substitute for Times Roman. If Times Roman is not available, try the font named Computer Modern Roman. On a Macintosh, use the font named Times. Right margins should be justified, not ragged.

3.2 Title and Authors
The title (Helvetica 18-point bold), authors’ names (Helvetica 12-point) and affiliations (Helvetica 10-point) run across the full width of the page – one column wide. We also recommend phone number (Helvetica 10-point) and e-mail address (Helvetica 12-point). See the top of this page for three addresses. If only one address is needed, center all address text. For two addresses, use two centered tabs, and so on. For more than three authors, you may have to improvise.

3.3 NO First Page Copyright Notice
Do not leave 3.81 cm (1.5”) of blank space at the bottom of the left column of the first page for the copyright notice.

3.4 Subsequent Pages
For pages other than the first page, start at the top of the page, and continue in double-column format. The two columns on the last page should be of equal length.

3.5 References and Citations
Footnotes should be Times New Roman 9-point.
Use the standard Communications of the ACM format for references – that is, a numbered list at the end of the article, ordered alphabetically by first author, and referenced by numbers in brackets [1]. See the examples of citations at the end of this document. Within this template file, use the style named references for the text of your citation.
References should be published materials accessible to the public. Internal technical reports may be cited only if they are easily accessible (i.e. you can give the address to obtain the report within your citation) and may be obtained by any reader. Proprietary information may not be cited. Private communications should be acknowledged, not referenced (e.g., “[Robertson, personal communication]”).

3.6 Page Numbering, Headers and Footers
Do not include headers, footers or page numbers in your submission. These will be added when the publications are assembled.

4. SECTIONS
The heading of a section should be in Times New Roman 12-point bold in all-capitals flush left. Sections and subsequent subsections should be numbered and flush left.

1 If necessary, you may place some address information in a footnote, or in a named section at the end of your paper.
4.1 Subsections
The heading of subsections should be in Times New Roman 12-point bold with only the initial letters capitalized. (Note: For subsections and subsubsections, a word like the or a is not capitalized unless it is the first word of the header.)

4.1.1 Subsubsections
The heading for subsubsections should be in Times New Roman 11-point italic with initial letters capitalized.

4.1.1.1 Subsubsubsections
The heading for subsubsubsections should be in Times New Roman 11-point italic with initial letters capitalized.

4.1.1.1.1 Subsubsubsubsections
The heading for subsubsubsubsections should be in Times New Roman 11-point italic with initial letters capitalized.

5. FIGURES/CAPTIONS
Place Tables/figures/images in text as close to the reference as possible. It may extend across both columns to a maximum width of 17.78 cm (7").

Captions should be Times New Roman 9-point bold. They should be numbered (e.g., “Table 1” or “Figure 2”) and be centered beneath each table, figure or image.
